The Next Generation Audience Engagement and Networking Platform for Live Events

Trusted by

Live Audience Engagement

- ✓ **Conduct** Live Polls, Quizzes and Surveys built in PowerPoint.
- ✓ **Customize** polls with advanced Skip Logic features, image based answers, and your own branding.
- ✓ **Design** your PowerPoint Chart to display Poll results.
- ✓ **Display** dynamic live survey responses and save the results within the active PowerPoint file.

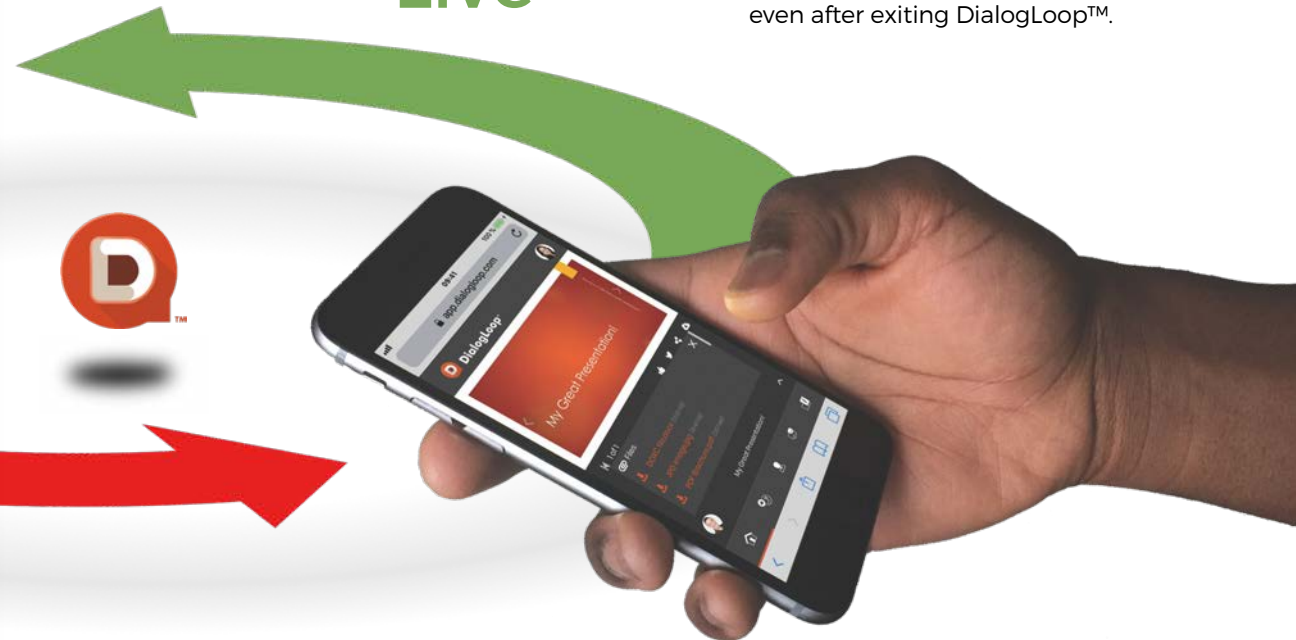

- ✓ **Conduct** Social Media style public discussions.
- ✓ **Enable** full session written Q&A with upvotes.
- ✓ **Receive** live Questions within the active PowerPoint file.
- ✓ **Moderate** attendee comments and questions.
- ✓ **Generate** detailed Engagement Level analytics reports.

Live In-room Networking

- ✓ **Connect** to the session through your Social Media login or create an account.
- ✓ **See** who is in the room with live profile updates.
- ✓ **View** Social Media Profiles, including the Presenter's custom made Profile Card.
- ✓ **Socialize** and network through a cross-platform Private Chat (bridging LinkedIn, Facebook and Twitter).
- ✓ **Receive** Private Chat email notifications even after exiting DialogLoop™.

Live

Seamless

Seamless Content Sharing from PowerPoint

- ✓ **Share** slides LIVE and dynamically to an attendee's device, at the presenter's pace, in multiple rooms independently and simultaneously.
- ✓ **Share** supporting files, links/URL, Speaker Notes, dedicated #tags for social Media (LinkedIn, Facebook, twitter) on individual slides.
- ✓ **Enable** attendees to download individual shared presentations and their own notes from the DialogLoop™ webapp.
- ✓ **Tweet** individual slides with #tags defined by the presenter and attendee.

- ✓ **Display** Presenter and Company profile for each session, with actionable links to promote books, creations and other activities.
- ✓ **Publish** a "last-minute" PowerPoint presentation in a couple of seconds.
- ✓ **Update** PowerPoint content and add supporting files while live Sharing.
- ✓ **Use** all DialogLoop™ features Before, During and After the event.
- ✓ **Maintain** all content and interactions after the event for viewing and updates.
